## CITY OF SAINT PAUL

Melvin Carter III, Mayor

The Most Livable  
City in America

### Street Reconstruction is Happening in Your Neighborhood in 2020! The Griggs-Scheffer Paving Project Phase I

#### **What is happening?**

The project will reconstruct streets in your neighborhood. See project map on reverse side.

#### **When is it happening?**

Your street will be under construction in 2020.

#### **How will the project impact you?**

The project will improve the street pavement, curb and gutter, street lighting, sidewalks, water mains, and storm sewers.

#### **What's the cost?**

The estimated project cost is approximately \$6 million. The project is predominately funded by street reconstruction bonds as well as assessments to the abutting property owners. Rates are not yet available, but if you have additional questions, please contact the city's assessment office at 651-266-8858.

#### **How can you learn more?**

1. Join us on September 11, 2019 for the informational project meeting.
2. Project updates will be available on the city's website at [www.stpaul.gov/construction](http://www.stpaul.gov/construction).
3. If you have additional questions or comments, please contact Project Engineer Chris Engelmann at 651-266-6084 or [chris.engelmann@ci.stpaul.mn.us](mailto:chris.engelmann@ci.stpaul.mn.us).

#### **Please join us at an informational project meeting:**

**Wednesday, September 11, 2019**

**6:00 p.m. to 7:45 p.m.**

**Presentation at 6:30 p.m.**

Highland Park Library Community Room

1974 Ford Parkway

#### **Sewers**

Property owners are responsible for their private sewer lines that are in the roadway and connect to the city's main sewer line. Because the street is being reconstructed, this can be a good time to do needed or preventative work/repairs on your private sewer line. We encourage everyone to have their sanitary sewer connection inspected to verify its condition.

If you are interested in learning more about having your sewer inspected or repaired, please contact the sewer utility desk at 651-266-6234.

#### **Water service**

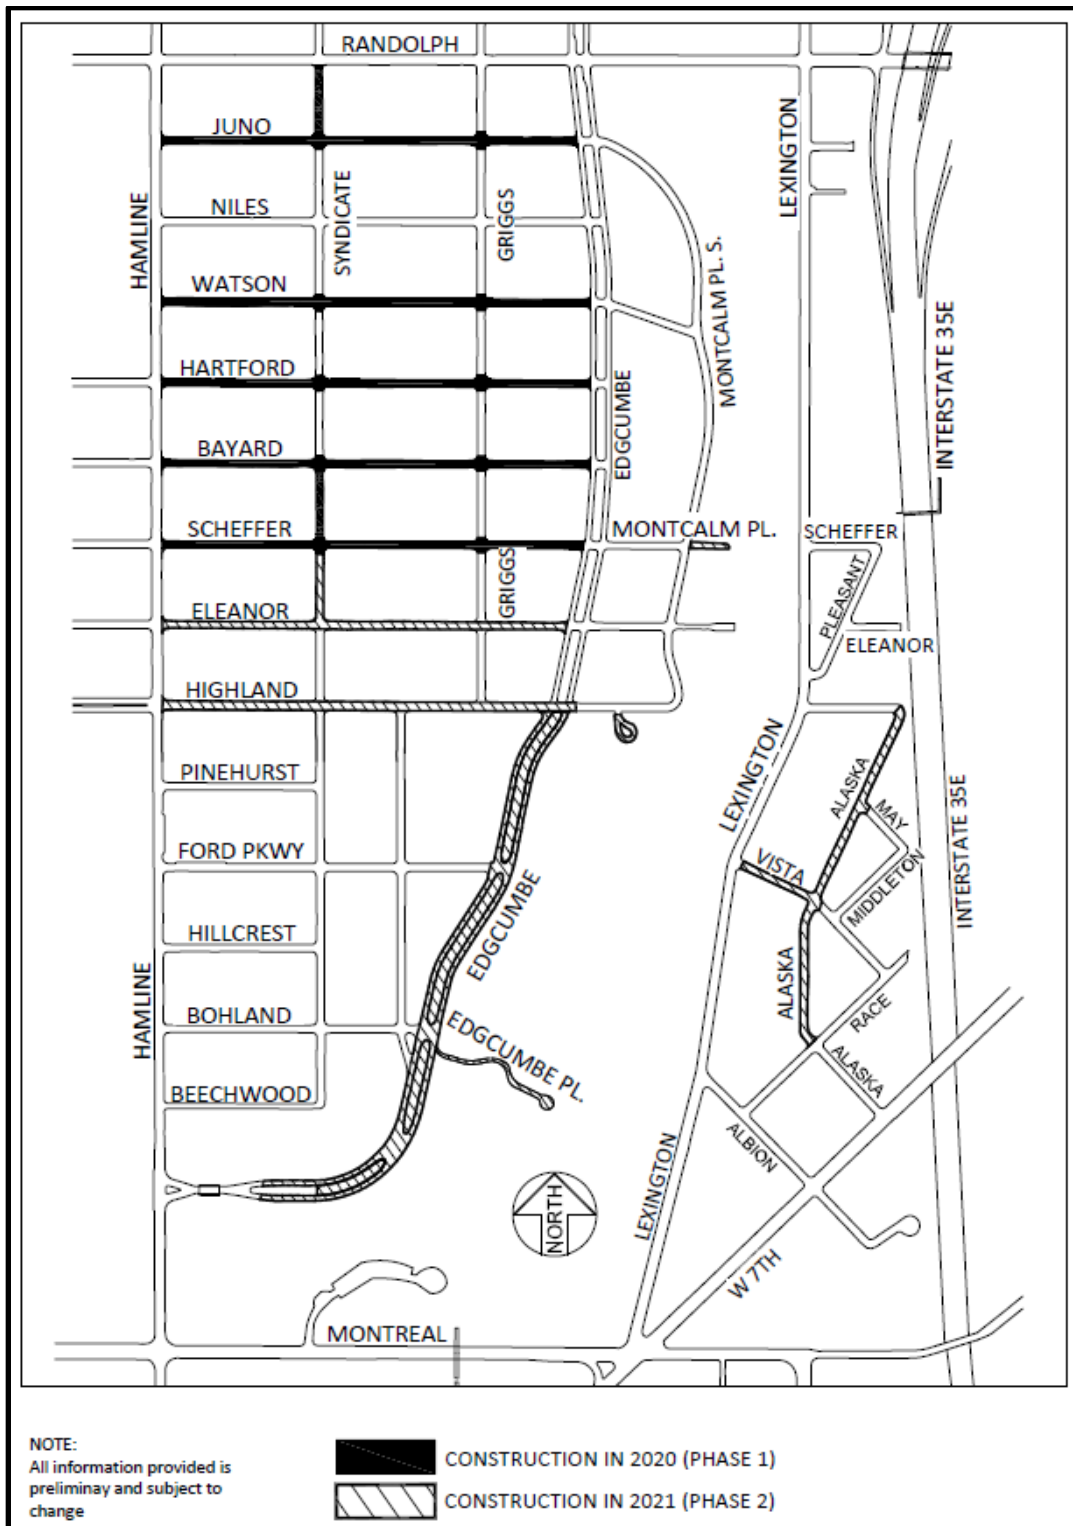

Saint Paul Regional Water Services (SPRWS) will replace all lead water services from the water main to the property line at no additional cost to the property owner. If you have a lead water service, you will receive notice from SPRWS with details. Questions? Visit <https://www.stpaul.gov/departments/water-services/lead-household-water> or contact SPRWS at 651-266-6270.

## PROJECT DETAILS

#### **Street widths and sidewalks**

Streets will be reconstructed at a width of 32-feet, comparable to the residential streets in the area. The project proposes to fill sidewalk gaps adjacent to segments of the Phase 1 reconstructed roadway.
