

Landscaping Ideas Using CPTED

Landscaping:

- Plant or arrange landscaping in such a way that it does not allow an intruder to hide. Rosebushes and cactii are especially effective.
- Plant "prickly" plants at points that may be used to observe inside the home, to include first-floor windows.
- Use a landscaping design that provides a means for surveillance and avoids "blind spots"

Plant Types:

Trees

- Holly
- Hawthorn
- Creeping Juniper

Shrubs

- Natal Plum
- Pyracantha
- Silver Thorn
- Rose Bush
- Giant Rhubarb
- Gooseberry
