Overview of Site from North

L1B3 Excavation and Footings

Bohland Wall CIP from South

Park C Ravine from North

- 7.54 miles of utilities installed on site
- 600,000+ cubic yards of dirt moved
- 1.1 miles of retaining walls poured around the Central Water Feature
- Class V down on all Phase 1 roads except for east Village Way, east Beechwood, and east Saunders
- All 2020 watermain (2.5+ miles) has been turned over to St. Paul Regional Water

- Xcel Energy solar RFP released on June 15th. Xcel will be seeking regulatory approval in 2021 for the 1MW solar array that will provide renewable energy to Highland Bridge.
- St. Paul Sustainable Building Policy compliance kick off for Block 3 (Weidner Apartment Homes), Pulte rowhomes, and Blocks 6 & 7 (Presbyterian Homes). Projects will meet SB2030, LEED and St. Paul Overlay requirements.
- Concept paper application to the Department of Energy Connected Communities grant funding opportunity in partnership with Xcel Energy, Center for Energy and Environment, Center for Sustainable Building Research, National Renewable Energy Laboratory, and the City of Saint Paul. Grant would provide for additional sustainable initiatives at the Highland Bridge site. Full funding application in spring 2021.
- Ongoing discussions with HourCar and the City regarding car sharing options.
